Expertise

Work Experiences

PharmEvo Blister Incharge

2019 (Continue)

I bring strong skills in operating and troubleshooting blister packaging machines, ensuring efficient, GMP-compliant production. I swiftly resolve issues to minimize downtime, prioritize preventive maintenance, and optimize processes for productivity and quality. With attention to detail and effective collaboration, I support high standards in product integrity and output through blister tooling. Organizing blister schedules, ensuring packaging material availability, and coordinating with teams to meet deadlines efficiently.

PharmEvo Blister Operator

2016-2019

Skilled in quickly identifying and resolving mechanical or operational issues in blister packaging machinery to minimize downtime, I implement on-the-spot solutions for malfunctions, defects, and workflow disruptions. I proactively conduct routine maintenance to prevent issues and extend machine longevity, while continuously assessing and optimizing processes to improve efficiency, reduce waste, and boost overall productivity.

Education

2023 **Shah Abdul Latif University**
Bachelor of Science (BSc)

2020 **Ziauddin Board**
Intermediate

2015 **Karachi Board**
Matriculation

Achievement

- Optimising blister packaging processes to reduce cycle times and improve output.
- Reducing material wastage and operational costs through effective resource management.
- Implementing new techniques to enhance packaging efficiency and productivity with compliance.
